

High Voltage, Pulsed Power & Power Electronics

PPM Power has been a leading UK specialist distributor of components and systems for high voltage, pulsed power and power electronics since 1994. From the latest SiC MOSFET technology offering 500 kHz switching frequencies, to IGBT modules for advanced topologies and passive components enabling high power-density converters, many products are available in custom variants or bespoke solutions.

The company's product range also includes high voltage power supplies, semiconductor modules, switches, capacitors, connectors and resistors as well as programmable power supplies, cooling solutions and simulation software to support high voltage, pulse power and analytical instruments applications.

PPM Power is a division of Pulse Power and Measurement Ltd (PPM). Guaranteeing its quality processes, products and workmanship, PPM is certified to the latest ISO quality standard: ISO 9001:2015. The company has been certified to ISO 9001 since 2005.
