

Energise your career with TNEI

Are you a motivated and ambitious graduate with a passion for renewable energy? We are looking to recruit bright and enthusiastic graduates to work on a diverse range of strategic, regulatory and technical consultancy projects focussing on the energy industry.

What we are looking for

We are seeking individuals who:

- Have a passion for all things renewable, taking an interest in the technical aspects of projects
- Enjoy working as part of a team
- Have a desire to work in a consultancy environment where technical results need to be applied to real projects in a commercial environment
- Have a background in engineering, acoustics, maths, physics, renewable energy, planning, environmental science, software/programming, economics or similar.

Internship and placement opportunities

We also offer internship and placement opportunities for students. We can match students up with suitable short-term projects enabling them to gain valuable industry experience. Please get in touch to discuss opportunities.

What we can offer you

- The opportunity to work, learn and progress in an exciting and growing sector on a wide range of consultancy projects
- The opportunity to work in a relaxed and friendly environment
- Training and development/CPD opportunities
- Discretionary annual performance-based bonus
- Company contributory pension scheme
- Private medical insurance
- A competitive salary
- Other benefits including cycle to work scheme.

How to apply

Please send your CV and a covering letter explaining why you would be suitable for a graduate role at TNEI to **info@tneigroup.com**.

Energise your career with TNEI

TNEI is a specialist consultancy in the energy sector. We help our clients respond to the complex challenges of integrating low-carbon technology into our everyday lives. Our technical prowess combines power systems analysis, renewables design and integration solutions, and environmental services.

Our project experience spans globally – from Shetland to the South Sea Islands. We are an independent business excelling in a competitive market. We offer a flexible, personal service that supports our clients quickly and efficiently, and without all the big corporate distractions.

What we do

-  Power systems analysis & design
-  Feasibility studies
-  Grid connection services
-  Network design & modelling
-  Shadow flicker & noise assessments
-  Technical & environmental due diligence
-  Civil engineering
-  Environmental impact assessments
-  GIS, mapping & analysis
-  Planning & consenting
-  Innovation, strategy & regulation

What our graduates say

"During my time at TNEI, I have been involved in a multitude of testing and interesting projects spanning across a number of industries and sectors, where problem-solving and creativity is encouraged by TNEI and key to achieving satisfactory results for our clients."

"My graduate experience at TNEI has not only helped develop my technical understanding but has also provided me the opportunity to take responsibility for commercial aspects. From early on I was given the opportunity to interact with clients and look after complete projects."

"I really enjoy the smaller nature of TNEI. I don't feel like I am just another employee number lost in a large corporate company. Everyone here is very supportive and encouraging, and as a graduate it isn't too difficult to get in touch with someone if you need help, direction or advice."
